Your Electric Bill

(continued from other side)

This number is your **account number**. When calling our office with questions about your account, please have this number handy.

This date indicates the **due date for current charges**. If payment is not received after 15 days past billing date, a past due notice is mailed and service is subject to disconnect.

This number is your **meter number**. It is linked in our office with your location. When reporting a power outage or service problems, this number is most helpful to our dispatcher and line crews.

Kilowatt-hours (kWh) is how your electric usage is measured. The dates of your meter readings are recorded as well as the readings themselves.

This is the number of your **rate class**. You may refer to the enclosed rate sheet to determine your electric rate.

Base Charges - The 'Facility Charge' is the monthly base amount charged for providing electric service. It includes costs of meter reading, billing, administrative overhead, maintenance and repair of system poles, lines, transformers, meters, etc. These have been itemized by MCREA per member account.

Energy Charges - The 'Energy Charge per kWh Rate' denotes the cost of purchasing our power from our provider, Tri-State Generation & Transmission, and distribution of electricity from MCREA's substations to your home or business.

Additional information about your average daily electrical use and average daily cost is provided at the bottom of each bill.
