Your Electric Bill

1 This indicates the **amount of and due date for current charges**. If payment is not received by this date, a past due notice is mailed and service is subject to disconnect.

2 Your **balance summary** shows your previous payments, current balance, and the total amount due by the current bill's due date.

3 Detach this stub and include it with your payment when sending it by mail or bring it with you to pay in person at our office.

4 Payments can also be made over the phone and online. MCREA encourages our members to sign up for **SmartHub**, our web and mobile app. With SmartHub, you can make payments, track your usage, and receive outage notifications.

5 This is the number of your **rate class**. Visit www.mcrea.org/tariff-sheets to see all rate classes and corresponding tariff sheets.

6 This number is your **meter number**. It is linked in our office with your location. When reporting a power outage or service problems, this number is most helpful to our dispatcher and line crews.

7 **Charges** - The **Facility Charge** is the monthly base amount charged for providing electric service. The **Demand Charge** is based on your peak kW demand for that month. The **Energy Charge per kWh Rate** denotes the cost of purchasing our power from our provider, Tri-State Generation & Transmission, and distribution of electricity from MCREA's substations to your facility.

8 The **Energy Usage Comparison** provides more information about how electricity is used at that location. It also provides other details, such as average temperature that month.
