| TRANSMISSION SERVICE | Company Rate Code |
| <p>APPLICABILITY: Applicable to industrial consumers desiring transmission level service, subject to the Rules and Regulations of the Association</p> | 88 |
| <p>TYPE OF SERVICE: At transmission voltages acceptable to the Association's power supplier. Where service of the type desired by the Consumer is not already available at the point of delivery, additional charges may be required prior to service being furnished.</p> | RATE |
| <p>MONTHLY RATE</p> | |
| <p>Each billing period the Consumer shall be obligated to pay the following charges:</p> | |
| <p>(1) Base Charges, per meter</p> <p style="padding-left: 40px;">Facilities Charges</p> | \$750.00 |
| <p>This is an availability charge for providing electric transmission service. The Base Charges do not include any energy; and</p> | |
| <p>(2) NCP Demand Charge: per billing NCP kW</p> <p style="padding-left: 40px;">Demand Charge per kW</p> | \$25.39 |
| <p>The Non-coincident peak (NCP) billing demand shall be the following:</p> | |
| <p>The maximum kilowatt demand established by the Consumer for any consecutive thirty (30) minute period during the month for which the bill is rendered, as indicated or recorded by a demand meter.</p> | |
| <p>(3) Energy Charge</p> <p style="padding-left: 40px;">All kWh, per kWh</p> | \$0.0418 |
| <p>MINIMUM CHARGE:</p> | |
| <p>Each billing period the Consumer shall be obligated to pay the following charges as a minimum, whether or not any energy is actually used:</p> | |
| <p>(1) \$750.00</p> | |

METERING

The Association shall meter at the transmission level.

CHARACTERISTICS OF ELECTRIC ENERGY

(1) Voltage.

The Association adopts the following standard voltages for transmission:

Three-Phase

115,000

230,000

345,000

Insofar as practicable the Association maintains its standard voltages within the variations permitted by the Rural Utilities Service (RUS).

(2) Frequency.

The Association's power supplier controls the frequency of current provided by the Association. Generally, the Association provides alternating current at a standard frequency of 60 cycles per second. Except for infrequent and unavoidable fluctuations, this standard is usually maintained within one-tenth (1/10) of a cycle per second.

AGREEMENT

An agreement for electric service with a fixed term may be required by the Association for Consumers who require a line extension to establish electric service. This rate schedule may be changed by the Association's Board of Directors and service hereunder is subject to the Association's tariff for electric service.

TERMS OF PAYMENT:

The above rates are net, due and payable within fifteen (15) days from the date of the bill. If any monthly bill is not paid when due, interest at the rate of one and one-half percent (1.5%) per month shall be assessed and the service will be discontinued after due notice.
